

Udhbav Bharadwaj

Industrial Designer

Work Experience

Enlisted Design

Oakland

June 2022- present

As an Industrial Designer 1, my job is to assist in the creation of Next-Level hardware products and experiences through interviews, market trend research, sketching, CAD, prototyping, photorealistic renders visualization, for brands ranging from consumer electronics and home goods, to up and coming Silicon Valley startups.

Sonos

Santa Barbara

Aug. 2021 - Dec 2021

Assisted in the development of product that have launched in the market, in all aspects ranging from initial research, user interviews, product scope, ideation, 3D visualization to specing, prototyping & communicating with model shops overseas. Served as project lead for future product exploration, which included inter-disciplinary communication within the various design teams and the company as a whole, rounding out Sonos' product portfolio.

Huge Design

San Francisco

Jan. 2021 - May 2021

Assisted the design process in all aspects, ranging from quick thumbnail sketches to 3D visualization in both Solidworks and Keyshot and presenting to clients. Worked on projects for BAT, Lenovo, Corsair, and other clients focused in Consumer Tech.

Peloton

New York City

June 2020 - August 2020

Tasked with working in a team in order to research a new target space for Pelotons growing customer base. This project was heavily research based, and culminated with us presenting our product line to upper management which is now in the development phase.

Education

University of Cincinnati, DAAP

Cincinnati

Class of 2022

Graduated with a BSc. in Industrial Design at the School of Design, Arch, Art and Planning, with an interest in Consumer Technology, Consumer Electronics and Footwear.

The Bishop's School

Pune, India

2010 - 2017

Head Boy, active participant in sports teams, Boy Scout Troop Leader along with being in the top 1% of my class annually.
